details described, said controlling conditions and controlling details being applied while a program of the contents is viewed.

5 (Currently Amended) The view control system according to Claim 1 ~~one of claim 1 to claim 4~~, characterized in that:

the view-controller is a controller for permitting or restraining the viewing of the contents in a case where a predetermined condition was satisfied at least one time before viewing the contents; and

the view controlling means is configured to detect the log satisfying said predetermined condition from among the recorded logs based upon said view-controller and to permit the viewing of the contents in a case where a predetermined log has been detected.

6 (Currently Amended) The view control system according to Claim 1 ~~one of claim 1 to claim 5~~, characterized in that:

the view-controller is a controller for permitting or restraining the viewing of the contents in a case where a predetermined condition is satisfied whenever the contents are viewed; and

the view controlling means is configured to detect the log satisfying said predetermined condition from among the recorded logs based upon said view-controller and to permit or restrain the viewing of the contents in a case where a predetermined log has been detected.

7 (Currently Amended) The view control system according to Claim 1 ~~one of claim 1 to claim 6~~, characterized in that:

PRELIMINARY AMENDMENT

New U.S. National Stage Entry of PCT/JP2005/003770

the view-controller is a controller for allowing a log of a predetermined permission or restraint to be recorded after viewing the contents; and

the view controlling means is configured to record said log of said predetermined permission or restraint based upon said view-controller after viewing the contents.

8 (Currently Amended) The view control system according to Claim 1 ~~one of claim 1 to claim 7~~, characterized in that:

the view-controller is a controller for giving permission of, or restraint to a predetermined matter while the contents are viewed; and

the view controlling means is configured to give permission of, or restraint to a predetermined matter based upon said view-controller while the contents are viewed.

9 (Currently Amended) The view control system according to Claim 1 ~~one of claim 1 to claim 8~~, characterized in that:

the view-controller is a controller for replacing a condition at the time of an initial setting with the other condition; and

the view controlling means is configured to detect the log satisfying the other condition, which replaces the condition at the time of an initial setting, based upon said view-controller and to permit the viewing of the contents in a case where its log has been detected.

10 (Currently Amended) The view control system according to Claim 1 ~~one of claim 1 to claim 9~~, characterized in including:

PRELIMINARY AMENDMENT
New U.S. National Stage Entry of PCT/JP2005/003770

a means for sending out a log record-controller for allowing a specific log to be recorded; and
a log recording means for recording the log of the viewer based upon said log record-controller.

11 (Original) A view control method, characterized in including the steps of:
recording a log of an viewer in a receiver side;
sending out a view-controller for controlling viewing of contents to a receiver based upon said log of said viewer; and
controlling the viewing of the contents based upon said view-controller and said recorded log in the receiver side.

12 (Original) The view control method according to claim 11, characterized in the view-controller has controlling conditions and controlling details described, said controlling conditions and controlling details being applied until a start time point of viewing the contents.

13 (Currently Amended) The view control method according to Claim 11 ~~one of claim 11 and claim 12~~, characterized in that the view-controller has viewing conditions described, said viewing conditions being applied after viewing the contents.

14 (Currently Amended) The view control method according to Claim 11 ~~one of claim 11 to claim 13~~, characterized in that the view-controller has controlling conditions and

PRELIMINARY AMENDMENT

New U.S. National Stage Entry of PCT/JP2005/003770

controlling details described, said controlling conditions and controlling details being applied while a program of the contents is viewed.

15 (Currently Amended) The view control method according to Claim 11 ~~one of claim 11 to claim 14~~, characterized in that:

the view-controller is a controller for permitting or restraining the viewing of the contents in a case where a predetermined condition was satisfied at least one time before viewing the contents; and

the view control method includes a step of, in the receiver side, detecting the log satisfying said predetermined condition from among the recorded logs based upon said view-controller to permit the viewing of the contents in a case where a predetermined log has been detected.

16 (Currently Amended) The view control method according to Claim 11 ~~one of claim 11 to claim 15~~, characterized in that:

the view-controller is a controller for permitting or restraining the viewing of the contents in a case where a predetermined condition is satisfied whenever the contents are viewed; and

the view control method includes a step of, in the receiver side, detecting the log satisfying said predetermined condition from among the recorded logs based upon said view-controller to permit or restrain the viewing of the contents in a case where a predetermined log has been detected.

PRELIMINARY AMENDMENT
New U.S. National Stage Entry of PCT/JP2005/003770

17 (Currently Amended) The view control method according to Claim 11 ~~one of claim 11 to claim 16~~, characterized in that:

the view-controller is a controller for allowing a log of a predetermined permission or restraint to be recorded after viewing the contents; and

the view control method includes a step of, in the receiver side, recording said log of said predetermined permission or restraint based upon said view-controller after viewing the contents.

18 (Currently Amended) The view control method according to Claim 11 ~~one of claim 11 to claim 17~~, characterized in that:

the view-controller is a controller for giving permission of, or restraint to a predetermined matter while the contents are viewed; and

the view control method includes a step of, in the receiver side, giving permission of, or restraint to a predetermined matter based upon said view-controller while the contents are viewed.

19 (Currently Amended) The view control method according to Claim 11 ~~one of claim 11 to claim 18~~, characterized in that:

the view-controller is a controller for replacing a condition at the time of an initial setting with the other condition; and

the view control method includes a step of, in the receiver side, detecting the log satisfying the other condition, which replaces the condition at the time of an initial setting, based upon said view-controller to permit the viewing of the contents in a case where its log has been detected.

PRELIMINARY AMENDMENT
New U.S. National Stage Entry of PCT/JP2005/003770

20 (Currently Amended) The view control method according to Claim 11 ~~one of claim 11 to claim 19~~, characterized in including the steps of:

sending out a log record-controller for allowing a specific log to be recorded to the receiver;

and

recording the log of the viewer based upon said log record-controller in the receiver side.
